GAME STORY

The time is the year 0373 in the new space age calendar. The earth's population is exploding so rapidly that people are seeking exodus to an outer space paradise. People everywhere are eager to develop space colonies and emigrate to them.

Jay McCray is no exception. He is preparing for his journey to the new space colony #428 in the Silius Solar System. He decided to move to the colony because his father, an astute scientist, was instrumental in the space colony development. Jay had always been proud of his father and wanted to be like him, even more so now, because his father was appointed leader of the SSS colony development.

Jay's dream is to be on a space colony development team. Unfortunately, his dream will not come true. A devastating explosion

rocked the SSS colony and destroyed everything, including all project data and the research team. Any further development of the colony would be impossible.

Because Jay's father was killed in the explosion, Jay would never know what really happened. He is determined to take over for his father, but without his father's records, research is at a standstill.

While searching his father's room, Jay finds a floppy disk. When he puts it in the computer, he realizes it contains a complete plan of the SSS colony development. The disk also includes a letter from his father which reads, "Terrorists are plotting to destroy the colony development. If anything happens to me, you must complete the project."

"Father knew this would happen," Jay said to himself, "but, now that I have his plans, I can finish his work." As Jay worked on the project, he realized the terrorists were still out there and even more determined to destroy the SSS colony plan.

Jay then vows, "I have no choice but to fight the terrorists to defend the colony development and to avenge my father's death."

WEAPON SELECTION

The hero, Jay, can use six different weapons available for selection, by following the processes below:

Weapon select mode — The player can switch 'game play' mode to/from 'weapon select' mode, by pressing the Start Button. The screen on the 'weapon select' mode is

WEAPON SELECTION

Press Select Button when selecting a weapon of preference below

..... **Hand Gun** — This gun is available at the game play start in stage 1 and can be used throughout the game play. This gun, not subject to energy consumption, keeps its energy constantly in full.

..... **Shot Gun** — Can shoot bullets to three directions. The gun is available at the game play start in stage 1.

WEAPON SELECTION

..... **Machine Gun** — Can shoot continuously. The gun is available for pickup in stage 1.

..... **Homing Missile** — Can shoot up to three missiles at a time and keep track of an aimed target. This missile is available at the end of stage 2.

..... **Laser Rifle** — Can shoot laser beams. This rifle is available in stage 3.

WEAPON SELECTION

Grenade Launcher — Can shoot a powerful, destructive hit. This weapon is available in stage 4.

Gun Energy Meter — The energy of each weapon, except Hand Gun, will be lost in proportion to its consumption. When energy is lost, no other weapons can be used for their intended purposes. You can check about the level of energy consumption on this meter. You can start using the weapon in hand when the energy is refilled by picking up an Energy Capsule.

ITEMS FOR PICKUP

There are four items available to pick up for selection of a weapon to use in the battle against enemies. Each item is marked with the initial of the weapon on the face of it. Two other items (capsules) are also available for pickup for recovery of game player power or weapon energy.

Machine Gun — Available for pickup in stage 1.

Homing Missile — Available for pickup at end of stage 2.

Laser Rifle — Available for pickup in stage 3.

ITEMS FOR PICKUP

Grenade Launcher —
Available for pickup in stage 4.

Life Capsule (red) —
Available for pickup in all stages. By picking up a Life Capsule, you can regain your life power by increasing an increment on the Life Power Meter.

Energy Capsule (blue) —
Available for pickup in all stages. By picking up an Energy Capsule, you can regain your game power energy by increasing two increments on the Game Energy Meter.

ITEMS FOR PICKUP

Energy Meters — Two Energy Meters are available: (1) Life Power Meter (P Meter) and (2) Gun Energy Meter (G Meter) (see left).

Both meters are constantly shown at the upper left on the screen when the game is in 'game play' mode (see right).

GAME PLAY FEATURES

1. In stages 3 and 4, you are exposed to a variety of enemy weaponry like laser launchers and cannons.
2. The background in the 5th stage is so programmed to automatically scroll (right to left) that you are geared to be carried all along the predetermined moving route, on the container, inside the factory.

PRECAUTIONS

Be sure to turn the power OFF before inserting the game pak or removing it from the unit.

This is a high-tech instrument. Do not store it in an area subject to extreme hot or cold temperatures. Never drop it, bump it or attempt to take it apart.

Avoid touching the connectors. Do not allow them to get wet or dirty. Doing so will damage the unit.

- ▶ **START** — Press either to start, to continue, or to switch 'game play' to/from 'weapon select' mode.
- ▶ **SELECT** — Press to pause (when the game is in 'game play' mode). Press to select a weapon of preference (when the game is in 'weapon select' mode and when option weapons are available).
- ▶ **JOYSTICK** — Press sideways to move the hero (Jay) left to/from right. Press down to let the hero lie down (no action follows by pressing up).

Compliance with FCC Regulations

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio-TV Interference Problems
